Supplier shall be liable to Buyer for any and all expenses, costs, and damages including increased re-procurement costs, requalification costs, and other non-recurring costs, except in the circumstance of any failure or delay constituting an "Excusable Delay" as set forth in the Section herein entitled "Force Majeure".
- 15.3 If the Order is entirely or partially terminated under this Section Buyer, in addition to any other rights Buyer may have, may require Supplier, at no charge to Buyer, to: (i) deliver to Buyer all information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, utilized by Supplier in performing the Order; (ii) deliver the tooling and test equipment necessary to make or have made the Goods and provide technical and transition assistance; and (iii) provide to Buyer a worldwide, perpetual non-exclusive, fully paid-up, irrevocable, license, with the right to grant sublicenses, to Supplier's information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, to the extent necessary, to enable Buyer to make, have made, use, sell and license the Goods.
- 15.4 In addition to and not in lieu of other rights to Intellectual Property otherwise set forth in this Agreement or these Terms and Conditions, Supplier hereby grants to Buyer a worldwide, non-exclusive, paid-up, irrevocable, license ("Additional License"), with the right to grant sublicenses, to Supplier's information, data, know-how, tooling, test

equipment and other Intellectual Property, including without limitations proprietary and manufacturing information to enable Buyer to make, have made, use, sell and license the Goods, subject to the following restriction. Buyer hereby agrees not to exercise such rights under this Additional License except in the event Supplier (i) becomes insolvent, (ii) becomes unable to pay its debts as they mature, (iii) makes a general assignment for the benefit of creditors, (iv) has a receiver appointed for the whole or any substantial part of its assets, or (v) becomes in any way the subject of a bankruptcy petition, whether or not the Order is terminated. As part of such Additional License, Supplier shall upon Buyer's written request and at no charge to Buyer, promptly (a) deliver to Buyer all information, data, know-how, and other Intellectual Property, including proprietary and manufacturing information, utilized by Supplier in performing the Order, and (b) deliver the tooling and test equipment necessary to make or have made the Goods and provide technical and transition assistance in order to ensure Buyer's continuing requirements for Goods.

- 15.5 If, after notice of termination under this Section, it is determined that Supplier was not in default, the rights and obligations of the Parties shall be the same as if the notice of termination had been issued pursuant to the Termination for Convenience Section. In such case, Supplier shall not be entitled to any remedy other than as provided for in the Termination for Convenience Section.

16. Termination for Convenience

- 16.1 Buyer may, at any time, terminate all or part of the Order (which, for the avoidance of doubt, includes the Agreement), for its convenience upon written notice to Supplier.
- 16.2 Upon termination, in accordance with Buyer's written direction, Supplier will immediately: (i) cease work and place no further subcontracts or orders for materials, services, or facilities, except as necessary to complete the continued portion of the Order; (ii) prepare and submit to Buyer an itemization of all completed and partially completed Goods and/or Services; (iii) deliver to Buyer any and all Goods completed up to the date of termination at the pre-termination Order price; and (iv) if requested by Buyer, deliver any work-in-process.
- 16.3 In the event Buyer terminates for its convenience after performance has commenced, Buyer will compensate Supplier only for the actual and reasonable work-in-process costs incurred by Supplier on Goods required to be delivered within the Lead Time period, calculated from Buyer's issuance of the notice of termination. If the Order does not specify Lead Time, Lead Time shall be the reasonable average lead time for the Goods in accordance with Buyer data. Supplier shall use reasonable efforts to mitigate its own and Buyer's liability under this Section. In order to receive compensation, Supplier's termination claim must be submitted within ninety (90) days from the effective date of the termination.
- 16.4 Buyer shall not be liable to Supplier for costs or damages other than as described above, and in no event for lost or anticipated profits, or unabsorbed indirect costs or overhead, or for any sum in excess of the price allocated to the portion of the Order terminated.

17. Customs Trade Partnership Against Terrorism (C-TPAT) Program

Applicability: This provision is applicable to Orders in which Goods will be shipped into the United States.

- 17.1 Supplier agrees that, during the period in which it ships Goods to Buyer, it and its subcontractors who either ship directly or package Goods for shipment will either (i) be certified under the Customs Trade Partnership Against Terrorism ("C-TPAT") program by the U.S. Bureau of Customs and Border Protection or (ii) demonstrate to Buyer's satisfaction that it meets the security requirements of C-TPAT. Accordingly, Supplier must either provide Buyer with documentation that it and its subcontractors are certified (e.g. C-TPAT certification or Status Verification Interface (SVI) number), or provide documentation and evidence satisfactory to Buyer to demonstrate compliance with C-TPAT security requirements, available at www.cbp.gov.
- 17.2 Upon five (5) days prior written notice, Buyer, or its designee, may audit all pertinent books and records of Supplier and its subcontractors, and make reasonable inspection of Supplier's and its subcontractors' premises, in order to verify compliance with the requirements of this provision.
- 17.3 Any delay in delivery due to Supplier's failure to comply with this provision shall not relieve Supplier of its obligations and shall not constitute a force majeure or give rise to an Excusable Delay.

18. Intellectual Property Rights (for non-U.S. Government Orders)

- 18.1 Background Intellectual Property shall mean all Intellectual Property other than Foreground Intellectual Property.
- 18.2 Foreground Intellectual Property shall mean all Intellectual Property and tangible work product conceived, created, acquired, or first reduced to practice in connection with the Order.
- 18.3 Each Party retains its existing rights in Background Intellectual Property.
- 18.4 Buyer shall own all Foreground Intellectual Property. Supplier shall disclose to Buyer all Foreground Intellectual Property. If not expressly required to be delivered in the Order, Supplier shall deliver to Buyer all Foreground Intellectual Property upon written request from Buyer. Supplier hereby irrevocably assigns and promises to assign to Buyer all right, title and interest to all Foreground Intellectual Property. Supplier agrees to do all things reasonably necessary to enable Buyer to secure and perfect Buyer's Foreground Intellectual Property rights, including, without limitation, executing specific assignments of title in Foreground Intellectual Property by Supplier to Buyer and cooperating with Buyer at Buyer's expense to defend and enforce Buyer's rights in any such Foreground Intellectual Property. All Foreground Intellectual Property assigned to Buyer pursuant to the Order shall be considered Buyer's Proprietary Information (defined hereinafter). Supplier agrees that, for any works of authorship created by Supplier or any employees or any others used by Supplier in the course of the Order, those works that come under one of the categories of "Works Made for Hire" in 17 U.S.C. §101 shall be considered "Works Made for Hire". For any works of authorship that do not come under such categories, Supplier, warranting that it has the right to do so, hereby assigns and promises to

- assign all right, title, and interest to any copyright in such works to Buyer and will execute, or cause to be executed at Buyer's expense, any documents required to establish Buyer's ownership of such copyright.
- 18.5 Supplier represents and warrants that Supplier has sufficient rights in all Goods, Services, and Intellectual Property and other items that Supplier uses or transfers to Buyer in connection with the Order to allow Supplier to lawfully comply with the Order.
- 18.6 Supplier hereby grants and promises to grant to Buyer and Buyer's Affiliates a worldwide, non-exclusive, perpetual, fully-paid, irrevocable, transferable license to Background Intellectual Property (i) to use, sell, offer for sale, import, export, copy, adapt, embed, modify, make derivative works, make and have made Goods and Services, and (ii) to enable Buyer to practice the Foreground Intellectual Property.
- 18.7 Supplier hereby irrevocably waives and promises to waive all moral rights to the extent permissible by law, all rights of privacy and publicity, and the like, in all Goods provided to Buyer and in all activities in connection with the Order.
- 18.8 Supplier represents and warrants that Supplier shall not provide, in the performance of the Order, any software, (including without limitation source code, compiled code, embedded software, firmware, free software, open source software, freeware, general public license-governed software, any electronic hardware, including without limitation free hardware, designs or open source hardware design), in any form that is subject to any obligations or conditions that may provide a legal right to any third party to access such software and/or electronic hardware, or that could otherwise impose any limitation or condition on Buyer's use, reproduction, modification, distribution or conveyance of such software or electronic hardware.
- 18.9 Except as expressly authorized herein, nothing in the Order shall be construed as Buyer granting Supplier a license in or any right to use any of Buyer's Intellectual Property other than in the performance of work under the Order.

19. Intellectual Property Indemnification

- 19.1 Supplier shall indemnify and hold harmless Buyer, Buyer's Customers, its Affiliates, and subsidiaries, their agents, directors, officers, and employees, and each subsequent purchaser or user, from any losses, costs, damages, and liabilities, including, without limitation, any attorney's fees, court costs and fines, arising from any potential or actual claim, suit, injunction, action, proceeding, or investigation alleging infringement or violation of any Intellectual Property rights or license, related to the manufacture, use, sale, offer for sale, import or other exploitation of any Goods or Services delivered or performed in connection with the Order ("Claim").
- 19.2 Supplier shall not be liable for any Claim based on Supplier's compliance with any Specification created by Buyer, unless: (i) Supplier could have complied with Buyer's Specification using a solution that was non-infringing; (ii) the Specification was derived from, recommended by, or provided by, Supplier; or (iii) Supplier knew or should have known of a Claim or potential Claim and did not promptly notify Buyer in writing.

- 19.3 Supplier shall, upon written notice from Buyer of a Claim, promptly assume and diligently conduct the entire defense of a Claim at its own expense. Insofar as the Buyer's interests are affected, the Buyer shall have the right, at its own expense and without releasing any obligation of the Supplier, to participate and intervene in a Claim. Buyer shall have the right to reasonably reject counsel selected by Supplier. Supplier shall not enter into any settlement without Buyer's prior written consent, which shall not be unreasonably withheld.
- 19.4 Buyer may supersede Supplier in the defense of any Claim, and assume and conduct the defense at Buyer's sole discretion. In such an event, Supplier shall be released from any obligation to pay for attorneys' fees and court costs, but not settlement or damages, and any such release is expressly conditioned on Supplier's complete cooperation with Buyer in Buyer's defense of such Claim at Buyer's expense. Buyer shall not enter into any settlement without Supplier's prior written consent, which shall not be unreasonably withheld.
- 19.5 If the manufacture, use, sale, offer for sale, import, export or other exploitation of any Goods or Services is enjoined by a court, if delivery is precluded by a government entity, or should Supplier refuse to provide or supply Goods or Services to avoid a potential third party claim, Supplier shall avoid any disruption to Buyer and shall (i) secure for Buyer the right to use or sell such Goods or Services ; (ii) modify or replace such Goods with equivalent non-infringing Goods or Services ; or (iii) provide such other solution acceptable to Buyer. Supplier shall reimburse Buyer for Buyer's costs incurred in obtaining all internal, external and Buyer Customer approvals, qualifications, certifications, and the like, necessary for making, using and selling alternate non-infringing Goods or Services. Supplier shall refund to Buyer the purchase price of any such Goods or Services that Buyer is prohibited from providing, using, selling, offering for sale, importing, exporting or otherwise exploiting.

20. Proprietary Information

- 20.1 In order to deliver the most effective and efficient Goods and Services possible and meet Buyer's requirements for those Goods and/or Services, Buyer and Supplier anticipate the need to exchange Proprietary Information (as defined below) for the design, development, testing, manufacture and/or repair of Goods and/or Services, as applicable in connection with such Order and/or the Agreement. In recognition of the value of that Proprietary Information, as well as to protect Buyer's goodwill and reputation in its products, Supplier agrees to the terms and conditions of this Section 20.
- 20.2 "Proprietary Information" shall mean all information, knowledge or data (including without limitation financial, business, and product strategy information; product specifications; product designs; procedures; studies; tests; and reports) in written, electronic, tangible, oral, visual or other form, (i) disclosed by, or obtained from, Buyer or (ii) conceived, created, acquired, or first reduced to practice in connection with the Order. If Buyer furnishes sample products, equipment, or other objects or material to Supplier, the items so received shall be used and the information obtained from said items shall be treated as if they were Proprietary Information disclosed in connection with the Order.

- 20.3 Unless the Supplier has received the Buyer's express written consent to the contrary, Supplier shall (i) use the Proprietary Information solely for the purposes of the Order, and not for any other purpose (including, without limitation, designing, manufacturing, selling, servicing or repairing equipment for entities other than Buyer; providing services to entities other than Buyer; or obtaining any government or third party approvals to do any of the foregoing); (ii) safeguard the Proprietary Information to prevent its disclosure to or use by third parties; (iii) not disclose the Proprietary Information to any third party; and (iv) not reverse engineer, disassemble, or decompile the Proprietary Information.
- 20.4 Supplier may disclose the Proprietary Information to employees, officers, directors, labor personnel of Supplier who have a need to know such Proprietary Information for the purposes of performing the Order and who have executed a written agreement with the Supplier obligating such entity or person to treat such information in a manner consistent with the terms of this Section.
- 20.5 The Order shall not restrict Supplier from using or disclosing any information that, as proven by written contemporaneous records kept in the ordinary course of business: (i) is or may hereafter be in the public domain through no improper act or omission of the Supplier or a third party; (ii) is received by Supplier without restriction as to disclosure by Supplier from a third party having a right to disclose it; (iii) was known to Supplier on a non-confidential basis prior to the disclosure by the Buyer; or (iv) was independently developed by employees of Supplier who did not have access to any of Buyer's Proprietary Information.
- 20.6 If Proprietary Information is required to be disclosed pursuant to judicial process, Supplier shall promptly provide notice of such process to Buyer and, upon request, shall fully cooperate with Buyer in seeking a protective order or otherwise contesting such a disclosure. Disclosure of such requested Proprietary Information shall not be deemed a breach of the Order provided that the obligations of this Section are fulfilled by Supplier.
- 20.7 Buyer shall have the right to audit all pertinent documentation of the Supplier, and to make reasonable inspection of the Supplier's premises, in order to verify compliance with this Section.
- 20.8 Obligations in this Section regarding Proprietary Information shall continue until such time as all Proprietary Information is publicly known and generally available through no improper act or omission of the Supplier or any third party.
- 20.9 Unless required otherwise by law or the Order, the Supplier shall promptly return, or otherwise dispose of Proprietary Information as the Buyer may direct. Absent contrary instructions, Supplier shall destroy all Proprietary Information one (1) year after termination or completion of the Order and provide written acknowledgement to Buyer of such destruction.
- 20.10 Supplier agrees to cause all information regardless of form (including, for example, electronic, magnetic and optical media, software, and compilations), containing or derived in whole or in part from Proprietary Information to bear the following legend:

This document contains the property of Sikorsky Aircraft Corporation and/or its Affiliate. You may not possess, use, copy or disclose this document or any information in it for any purpose, including without limitation to design, manufacture, or repair Goods, or obtain FAA, Transport Canada Civil Aviation (TCCA) or other government approval to do so, without express written permission. Neither receipt, from any source, nor possession of this document, constitutes such permission. Possession, use, copying or disclosure by anyone without express written permission of Sikorsky Aircraft Corporation and/or its Affiliate issuing the Order is not authorized and may result in criminal and/or civil liability.

- 20.11 Notwithstanding any proprietary or confidential labels or markings, all information of Supplier disclosed to Buyer relating to the Order will be deemed non-confidential and the content of the Order may be disclosed by Buyer to Buyer's Affiliates or to Buyer's Customer or Buyer's subcontractors and potential subcontractors provided that Buyer's Customer or subcontractors have a need to access or know such information. Moreover, Buyer may disclose all Supplier information, in accordance with applicable governmental regulations, to the FAA, the European Aviation Safety Agency (EASA), TCCA, any other governing international airworthiness certifying authority, and/or any other department or agency of the U.S. Government, including, without limitation, for the purpose of obtaining necessary government approvals.
- 20.12 Supplier agrees that it will not accept from any third party, or use, any information that appears to be similar to Proprietary Information without first obtaining Buyer's express written consent, except that Supplier may receive solicitations or purchase orders issued by a partner or higher-tier supplier of Buyer that expressly reference a Buyer Purchase Order and contain obligations no less stringent than this Section. Supplier shall promptly notify Buyer if Proprietary Information is offered to Supplier by a third party or of the suspected possession of Proprietary Information by a third party.
- 20.13 Supplier acknowledges that exposure to Buyer's Proprietary Information and other Intellectual Property will make it easier for Supplier to manufacture or repair, or to apply for or assist another entity in obtaining FAA or other government approval for, Goods that are the same Goods or that have the same form, fit and function, as Goods Supplier supplies to Buyer pursuant to an Order hereunder. Supplier also acknowledges that Buyer's goodwill and reputation which become associated with Goods supplied by Supplier pursuant to an Order hereunder once approved for use in Buyer's products make it easier for Supplier to manufacture or repair, or to apply for or assist another entity in obtaining FAA or other government approval for those Goods, or Goods that have the same form, fit and function, for use in Buyer's products. Supplier agrees that it shall not manufacture or repair Goods that Supplier supplies to Buyer pursuant to an Order hereunder, or manufacture or repair Goods having the same form, fit and function, for use in Buyer's products, or apply for or assist another entity in obtaining FAA or other government approval for any such Goods, without Buyer's written consent. If Supplier manufactures or repairs any such Goods, or applies for or assists another entity in obtaining FAA or other government approval for any such Goods, for use in Buyer's products without obtaining Buyer's written consent, then it shall be considered a breach of the Order and Buyer shall be entitled to injunctive relief and such other remedies as a court

- may order. Supplier shall not make accessible or sell completed or partially completed or defective Goods manufactured using or containing Proprietary Information to any unauthorized third parties. Goods not provided to Buyer shall be disposed of in a manner that prevents disclosure of Proprietary Information (including by reverse engineering).
- 20.14 Supplier acknowledges that exposure to Buyer's Proprietary Information and other Intellectual Property will make it easier for Supplier to manufacture or repair Goods, or to apply for or assist another entity in obtaining FAA or other government approval for, Goods that are the same or that have the same form, fit and function, as Goods Supplier supplies to Buyer pursuant to an Order hereunder. Supplier agrees to notify Buyer in writing and to obtain Buyer's written consent prior to manufacturing or repairing any Goods, or applying for or assisting another entity in obtaining FAA or other government approval for any Goods, for itself or another entity, that have the same form, fit and function as any Goods Supplier supplies to Buyer pursuant to an Order hereunder. Supplier's notification shall (a) describe the Goods to be manufactured or repaired, or for which application for or assistance to another entity in obtaining FAA or other government approval for such Goods is to be provided, (b) identify the corresponding Goods Supplier supplies to Buyer and (c) provide Buyer with sufficient information to demonstrate that Supplier will manufacture or repair, or apply for or assist another entity in obtaining FAA or other government approval for such Goods (as the case may be) without reference to or use of Buyer Proprietary Information or other Buyer Intellectual Property. If Supplier manufactures or repairs any such Goods without obtaining Buyer's written consent (or applies for or assists another entity in obtaining FAA or other government approval for such Goods), then it shall be considered a breach of the Order and Buyer shall be entitled to injunctive relief and such other remedies as a court may order.
- 20.15 Supplier shall not make accessible or sell completed or partially completed or defective Goods manufactured using or containing Proprietary Information to any unauthorized third parties. Goods not provided to Buyer shall be disposed of in a manner that prevents disclosure of Proprietary Information (including by reverse engineering).
- 20.16 For proprietary information exchanged in connection with the Order, the terms of this Section shall supersede any provisions regarding the protection of proprietary information in any other agreement between the Parties.

21. Security for BUYER Information Stored by Supplier

- 21.1 Buyer wishes to ensure that Supplier has effective information security to ensure the secure storage and/or processing of BUYER Information (as defined below) at Supplier's facility and to facilitate the exchange of information between Buyer and Supplier. As used in this provision, "BUYER Information" means (i) Proprietary Information owned by BUYER or a BUYER Affiliate (each such entity, a "BUYER Entity"); (ii) information managed by BUYER or a BUYER Entity; (iii) information that BUYER or a BUYER Entity is obligated to manage and protect on behalf of others; and (iv) personally-identifiable information relating to an identified or identifiable

employee of BUYER or a BUYER Entity or others that is protected by various privacy laws (current or future) as applicable throughout the world including, without limitation, Social Security Number, address, telephone number, gender, birth date, medical records, trade union membership, driver's license number, financial account number, credit or debit card number (all subsection (iv)) defined as "PII").

21.2 Supplier agrees to install and implement security hardware, software, procedures and policies that will provide reasonable and effective information security. Supplier agrees to update such hardware, software, procedures and policies as may be needed from time to time to utilize improved technology and to respond to more sophisticated security threats in order to maintain a level of security protection appropriate for the information involved and the current state of security solutions.

21.3 Supplier further agrees to:

21.3.1 Provide to Buyer a copy of its current information security policy, including its policy regarding physical security for access to devices that may access BUYER Information. Supplier shall annually provide Buyer with its then current policy and indicate any plans, including a timetable for implementation, of planned upgrades to comply with the policy. Supplier shall implement those reasonable requests for modification of such policy requested by Buyer.

21.3.2 Allow Buyer or its designee at any time to conduct (or have conducted) a remote network audit. If the BUYER Information is stored in a shared environment per the agreement of Buyer, then Buyer shall use a third party to conduct such audits. The audits shall include any facilities with BUYER Information including backup storage facilities.

21.3.3 Segregate all BUYER Information into a separate database only accessible by Buyer, its agents and those employees of Supplier necessary to maintain the equipment and the program on which it runs, unless otherwise agreed by Buyer. Logical segregation of data, if approved by Buyer, may be an acceptable alternative to this requirement. Except for Buyer and its agents, Supplier shall use reasonable efforts, as measured by the available technology at the time, to prevent anyone other than its authorized employees from accessing the BUYER Information.

21.3.4 Assure that all BUYER Information and applicable software is appropriately backed up and recoverable in the event of a disaster.

21.3.5 Encryption Requirements. The following requirements apply when Supplier has possession of BUYER Information. Encryption algorithms used must be of sufficient strength to equate to 128-bit RC-4 or better. All cryptography technologies used must be published and approved by the general cryptographic community.

21.3.5.1 Encrypt all BUYER Information stored on Supplier computer systems and backup media

21.3.5.2 Encrypt all BUYER Information transferred across public networks.

- 21.3.5.3 Encrypt all BUYER Information stored on Supplier mobile computing devices (e.g. laptop computers, PDAs (personal digital assistants), etc.)
- 21.3.6 Not to store PII on any Supplier mobile computing devices (e.g. laptop computers, PDAs (personal digital assistants), etc.)
- 21.3.7 Conduct appropriate background checks on all non-Buyer personnel who will have access to the environment and/or BUYER Information and approve those personnel based on the results of those checks. Supplier must disclose to Buyer the procedures used for those employees having access to the BUYER Information.
- 21.3.8 Provide Buyer at the time of signing the Agreement with a termination plan that addresses how BUYER Information will be returned to Buyer at the termination or expiration of the Agreement, including backup and archival information, and how all BUYER Information will be permanently removed from Supplier's equipment and facilities. This plan should include supplying the data to Buyer in an industry recognized non-proprietary database and, if not, a free-of-charge license to use the proprietary data base software to access the data.
- 21.3.9 Describe at the time of signing of the Agreement how Supplier will meet Buyer's requirement for a secure authentication process for access to BUYER Information or, for less sensitive information, where "Strong Password" data control is sufficient, describe how this requirement will be met.
- 21.3.10 Provide information and cooperation to Buyer in response to any subpoena, investigation or the like seeking BUYER Information and provide information and assistance for Buyer to seek certification and the like relative to its information including information in the possession of Supplier. Supplier shall promptly notify Buyer upon the receipt of any request requiring that BUYER Information be supplied to a third party.
- 21.3.11 Comply, within a reasonable period of time, with BUYER Information security policies as amended from time to time.
- 21.4 Supplier shall not provide BUYER Information to any other entity without the prior written approval of Buyer, except to the extent expressly permitted under Section 20 Proprietary Information hereof. A request for Buyer approval shall include agreement by Supplier and such other entity that all of the requirements of this provision are applicable to their performance and that Buyer shall have the right to perform the audits described above.
- 21.5 Should Supplier fail to meet the then current standards for information security, or should Supplier fail to pass a Buyer audit on information protection, then Buyer may immediately terminate the Agreement and/or any Order in accordance with Section 15 Termination for Default without prejudice to any other rights or remedies and shall have no further obligation to Supplier.

- 21.6 The foregoing provisions do not otherwise diminish or limit Supplier's obligations regarding the receipt, use, protection and/or disclosure of Buyer Proprietary Information otherwise set forth hereunder.

22. Offset

- 22.1 Buyer may use all or any part of the value of the Order, including the value of any subcontracts placed by the Supplier for the Order, for satisfying international offset obligations of Buyer, Buyer's Affiliates, or any entity that Buyer transfers such value to. Supplier may use the offset credit generated by the Order or the subcontracting of the Order only upon Buyer's written approval.
- 22.2 Supplier shall support Buyer in meeting Buyer's offset requirements in proportion to the value of the Goods supplied by Supplier to the value of the end item sold by Buyer into the particular country.
- 22.3 Upon Buyer's request the Supplier shall (i) report all subcontract sources outside the United States utilized in the fulfillment of this Order, including the name and location of each such source, amounts paid and committed thereto and identification of the Goods or Services procured, and (ii) require its subcontractors, including those at all lower tiers, to maintain records of the above information.

23. Insurance

- 23.1 Without limiting Supplier's duty to hold harmless and indemnify hereunder, Supplier agrees to secure and carry as a minimum the following insurance with respect to all work to be performed and Goods to be produced under the Order for the duration of the Order: (i) Workers' Compensation Insurance, inclusive of an alternate employer endorsement, in an amount sufficient by virtue of the laws of the U.S., foreign country, state, or other governmental subdivision in which the work or any portion of the work is performed and Employer's Liability Insurance in the minimum amount of \$1,000,000 for any one occurrence; (ii) Commercial General Liability Insurance including Premises Liability and contractual Liability, in which the limit of liability for property damage and bodily injuries, including accidental death, shall be at a minimum, a Combined Single Limit of \$5,000,000 for any one occurrence; (iii) if Supplier vehicles are used on Buyer's premises and/or used to accomplish work under the Order or otherwise on behalf of Buyer, Automobile Liability Insurance in which the limit of liability for property damage and bodily injuries, including accidental death, shall be a combined single limit of \$1,000,000 for any one occurrence; (iv) if Supplier or its subcontractors have Buyer's materials or equipment in its care, custody or control, Supplier shall have and maintain All-Risk Property Insurance in an amount sufficient to meet or exceed the value of such material; and (v) if Supplier is performing Professional Services on behalf of Buyer, Supplier shall maintain Professional Liability Insurance with a limit of no less than \$5,000,000;
- 23.2 The following shall apply if Supplier is providing Goods, component parts, materials or work to be incorporated in aircraft where such Goods, component parts or materials are classified as Flight Safety Parts (FSP) or its equivalent or having Critical Characteristics (CC) or its equivalent in accordance with the current revision of ASQR-01, ASQR-09.1 and/or any documents referenced therein: Supplier shall

maintain Aircraft Product Liability, Completed Operations Liability and, if applicable to the Goods or Services, Hangerkeepers Liability Insurance coverage in a minimum amount of Combined Single Limit of \$50,000,000 for any one occurrence and in the aggregate where applicable, including AV52 coverage (War Risks Insurance). Such insurance shall remain in effect for two (2) years after the expiration or termination of the Order.

- 23.3 All such insurance shall be issued by companies authorized to do business under the laws of the State or jurisdiction in which all or part of the Services are to be performed, and must have an AM Best financial rating of A- or better or an equivalent rating as produced by another rating agency acceptable to Buyer.
- 23.4 The insurance coverages described above shall be in form satisfactory to Buyer, and shall contain a provision prohibiting cancellation or material change except upon at least ten (10) days' (seven (7) days in the case of War Risks Insurance) prior notice to Buyer. All such insurance policies will be primary in the event of a loss arising out of the Supplier's performance of work and shall provide that where there is more than one insured the policy will operate, except for the limits of liability, as if there were a separate policy covering each insured and shall operate without right of contribution from any other insurance carrier by Buyer. Certificates evidencing such insurance and endorsements naming BUYER and the Buyer as an additional insured or, in the case of All Risk Property Insurance, naming BUYER as a loss payee, shall be filed with Buyer upon execution of the Order and before commencement of any work hereunder, and within thirty (30) days after any renewals or changes to such policies are issued. To the extent permitted by law, Supplier and its insurer(s) agree that subrogation rights against BUYER are hereby waived; such waiver shall be reflected on the insurance certificate. Supplier shall, if requested by Buyer, advise Buyer of the amount of available policy limits and the amounts of any self-insured retention.
- 23.5 The certificate of insurance shall identify the contract number or work to be performed and shall acknowledge that such coverage applies to liabilities incurred by supplier, its employees, invitees or agents under the Order and that such insurance shall not be invalidated by any act or neglect of the supplier whether or not such act or neglect is a breach or violation of any warranty, declarations or conditions of the policies.
- 23.6 Supplier shall require its subcontractors to maintain insurance in the amounts and types required by this provision.

24. Disaster Recovery

If Supplier is (i) providing Flight Safety Parts in accordance with the current revision of ASQR-01, ASQR-09.1, and/or any documents referenced therein; (ii) a sole source of supply; or (iii) providing products whose Lead Time exceeds one hundred twenty (120) days; or as otherwise directed by Buyer, Supplier shall develop and maintain a Disaster Recovery Plan acceptable to Buyer for the recovery and continuation of business related to the design, development, certification, manufacture, sale, use and/or support of the Goods furnished hereunder, in the event of a disaster or emergency. Such plan shall, among other things, prevent or limit the interruption of the supply of Goods in conformity

with the requirements set forth herein. Supplier shall furnish a copy of Disaster Recovery Plan to Buyer upon request.

25. Standards of Business Conduct

25.1 Supplier shall adopt and comply with a code of conduct or policy statement regarding business conduct, ethics and compliance that satisfies, at a minimum, the principles and expectations set forth in the United Technologies Corporation Supplier Code of Conduct available at the BUYER Supplier Site (<http://www.Buyer.com/Suppliers/Pages/Supplier-Code-of-Conduct.aspx>) ("Supplier Code of Conduct"). Supplier shall have management systems, tools and processes in place that (a) ensure compliance with applicable laws and regulations and the requirements set forth in the Supplier Code of Conduct; (b) promote an awareness of and commitment to ethical business practices, including, without limitation, the expectations set forth in the Supplier Code of Conduct; (c) facilitate the timely discovery, investigation (including cooperation with any Buyer initiated investigation involving Supplier), disclosure (to Buyer and others as appropriate) and implementation of corrective actions for violations of law, regulations, this Agreement, an Order, or the expectations set forth in the Supplier Code of Conduct; and (d) provide training to its employees on compliance requirements, including the expectations set forth in the Supplier Code of Conduct. At Buyer's request, Supplier shall develop, adopt and comply with a technology control ("TCP") satisfactory to Buyer. Such TCP shall ensure that Supplier and its subcontractors comply with the terms of the Agreement (including the export control provisions of these Terms and Conditions). Supplier's compliance with the TCP shall be reviewed with Buyer at Buyer's request.

26. Compliance with Laws

- 26.1 Supplier shall comply with all applicable national, state, provincial, and local laws, ordinances, rules, and regulations applicable to the performance of the Order, except to the extent inconsistent with US anti-boycott laws, including (i) the manufacture or provisioning of Goods, (ii) the shipping of Goods and (iii) the configuration or content of Goods for the use intended by Buyer.
