

# On Demand F-35 Mission Rehearsal Training

## Mission Rehearsal Training Solutions

Lockheed Martin Mission Rehearsal Training solutions offers high-end training with reduced hardware requirements to train pilots with 5th Generation Tactics, Techniques and Procedures (TTPs).

### ENABLES FUTURE DEPLOYABLE VARIANTS

- Small footprint and modular configuration provide flexibility for on demand training
- Leverages existing Distributed Mission Training technology to train in the joint domain environment

### ADDS FLEXIBILITY TO INCREASE PILOT TRAINING AND MISSION REHEARSAL

- Connects with existing family of F-35 Pilot Training Devices
- Integrates in large force employment events
- Enhances the integration of warfighting forces for more realistic training environments
- Fully functional for standalone operations with no instructor needed
- Increases training sortie generation with multiple low-cost devices
- Promotes pilot currency/proficiency and squadron training of Mission Essential Tasks (METs)

### EVOLVES WITH YOUR MISSION

- Maintains concurrency with the air vehicle utilizing Operational Flight Program (OFP) based software
- Utilizes advanced technology enabling mission rehearsal and tactics development for 8-ship+ operations in high end training scenarios

### PROVIDES LIFE CYCLE COST SAVINGS ACROSS THE PROGRAM

- Reduced hardware requirements provide life cycle savings
- Utilizes commercially available technology to reduce procurement and sustainment costs
